温馨提示

A Friendly Reminder

各位参会嘉宾：

欢迎您出席 2024 贵阳·华人生命科学大会，请您抽出宝贵时间阅读《会议服务指南》和《会议议程》，了解会议流程及会务有关事项，大会工作人员将在会议期间竭诚为您提供及时、便捷、贴心的服务。

会议期间，请各位嘉宾提前 15 分钟到达指定会场并有序就坐。会议时，请遵守会议纪律，将手机调至静音模式或关闭，不要随意离开座位或大声喧哗。会议期间，如有不周之处，请及时指出，以便我们更好地为您服务。

Dear Distinguished Guests,

Welcome to the 2024 International Conference on Life Sciences in Guiyang, China. Please take a moment to glance over the Conference Services Guide and Conference Agenda to familiarize yourselves with the schedules, activities, and sessions.

During the conference, we kindly ask that you arrive at the designated venue 15 minutes earlier and take your assigned seats. Please turn off or mute your mobile phone as requested by the guidelines, remain in your seat unless instructed otherwise, and keep quiet to avoid disrupting the proceedings.

The conference staff will be on hand to ensure a timely and attentive service for all attendees. If you require any assistance, please do not hesitate to let us know, and we will do our utmost to provide you with excellent service.

贵州省简介

贵州地处中国西南地区内陆腹地，全省辖 6 个地级市、3 个自治州、1 个国家级新区，有 88 个县（市、区、特区）。国土面积 17.62 万平方公里，其中山地和丘陵占 92.5%。2023 年末，全省常住人口 3865 万人，其中少数民族人口 1405 万人。

贵州历史悠久、文化多彩、资源丰富、生态良好、区位便利。一是自然风光优美。有荔波喀斯特、赤水丹霞、施秉云台山、铜仁梵净山 4 个世界自然遗产和海龙屯世界文化遗产，是中国世界自然遗产最多的省份。有全球最大单口径球面射电望远镜——中国天眼，有黄果树、织金洞等国家级风景名胜区 18 个。森林覆盖率达 63%，被誉为“公园省”。二是气候舒适宜人。冬无严寒、夏无酷暑，雨量充沛、雨热同季。年均气温 15°C 左右，为典型夏凉地区，贵阳被誉为“中国避暑之都”。三是文化丰富多彩。有苗族、布依族、侗族等 17 个世居少数民族，侗族大歌、苗族飞歌、布依族八音坐唱享誉海内外；阳明文化、夜郎文化、屯堡文化独树一帜。四是资源禀赋良好。已发现矿产 137 种，其中汞、重晶石、锰等 25 种矿产资源储量位居全国前 3 位，51 种矿产资源储量排名全国前 10 位。中药材资源丰富，自古“黔地无闲草，处处皆灵药”，是全国道地中药材四大优势产区之一。绿色优质农产品备受青睐，畅销省内外。五是区位优势明显。是西南重要陆路交通枢纽、西部陆海新通道必经地，高速铁路通达长三角、珠三角、京津冀和川渝滇，90% 的市（州）通高铁，高铁通车里程 1527 公里，高速公路通车里程突破 8000 公里。

Introduction of Guizhou Province

Guizhou is an inland province located in Southwestern China. It comprises six prefecture-level cities, three autonomous prefectures, one national-level new area, and 88 counties (including county-level cities, districts, and special regions). The province spans an area of 176,200 square kilometers, with mountains and hills making up 92.5% of the landscape. As of the end of 2023, Guizhou has a permanent resident population of 38.65 million, of which 14.05 million are from ethnic minorities.

Guizhou is renowned for its long history, diverse cultures, abundant resources, rich ecological environment, and favorable location. Its distinctive features are highlighted in the following five aspects:

Beautiful scenery. Guizhou showcases a unique natural environment and is home to the most UNESCO World Natural Heritage sites in China, surpassing other provinces. Notable sites include Libo Karst, Chishui Danxia, Shibing Yuntai Mountain and Tongren Fanjing Mountain. The province also features a UNESCO World Cultural Heritage site—Hailongtun Fortress. Guizhou boasts 18 national scenic areas including Huangguoshu Waterfalls and Zhijin Cave. With a forest coverage rate of 63%, Guizhou is often referred to as a “Park Province.” It is also home to the world’s largest Five-hundred-meter Aperture Spherical Radio Telescope (FAST), known as Tianyan (the Eye of Heaven).

Agreeable climate. Guizhou enjoys a temperate and pleasant climate year-round, characterized by mild winters and comfortably cool summers. The region receives ample rainfall during its hot and rainy summer months, with an average annual temperature around 15°C. This refreshing summer climate has earned Guiyang, the capital of Guizhou, the fame of “China’s Summer Resort Capital.”

Diverse cultures. Guizhou is home to 17 ethnic groups including the Miao, Bouyei, and Dong. This region is celebrated for its rich cultural heritage, featuring the Dong’s Grand Song (a cappella songs sung by huge choirs), the Miao’s Folk Song, and the Buyi’s Eight-Tone Seated Singing (traditional Buyi art in form of narrative singing and story-telling, accompanied with eight Buyi music instruments), all of which have receive accolades both domestically and internationally. Guizhou also serves as fertile ground for distinctive early civilizations, such as Yangming Culture (represented by the theory “the unity of knowledge and action” proposed by the Ming Dynasty philosopher Wang Yangming, 1472-1529), Yelang Culture (the cultural

heritage of Yelang Ancient State in the third century BC), and Tunpu Culture (the unique cultural heritage in Anshun of Guizhou, preserving Ming Dynasty traditions in language, clothing, architecture, and entertainment).

Abundant resources. The region has identified 137 types of mineral resources, with reserves of 25 minerals, including mercury, barite, and manganese, ranking among the top three in the country. Additionally, the reserves of 51 mineral resources place Guizhou among the top ten nationally. The province also has a wealth of materials for traditional Chinese medicine. An old saying claims that every plant grown in Guizhou holds medicinal value, highlighting its status as one of the four major sources of authentic medicinal ingredients in China. Furthermore, Guizhou's high-quality agricultural products, cultivated using green production technologies, are highly sought after and enjoy robust sales both within the province and beyond.

Significant location advantages. Guizhou serves as a key land transportation hub in Southwestern China and is a critical passageway for the New International Land-Sea Trade Corridor. Its extensive high-speed railway network connects areas such as the Yangtze River Delta, the Pearl River Delta, the Beijing-Tianjin-Hebei region, and the Sichuan-Chongqing-Yunnan region. Currently, 90% of cities and prefectures are accessible by high-speed rail, with a total network extending over 1,527 kilometers. The total mileage of expressways the province exceeds 8,000 kilometers.
